  - Vertical Awnings / Blinds

## Modern Design

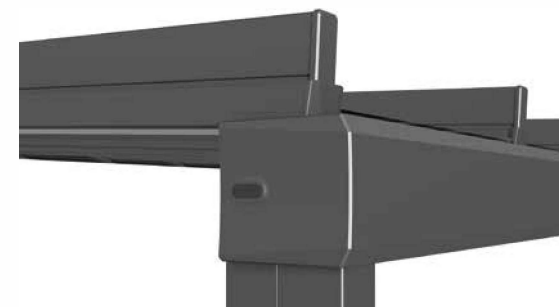

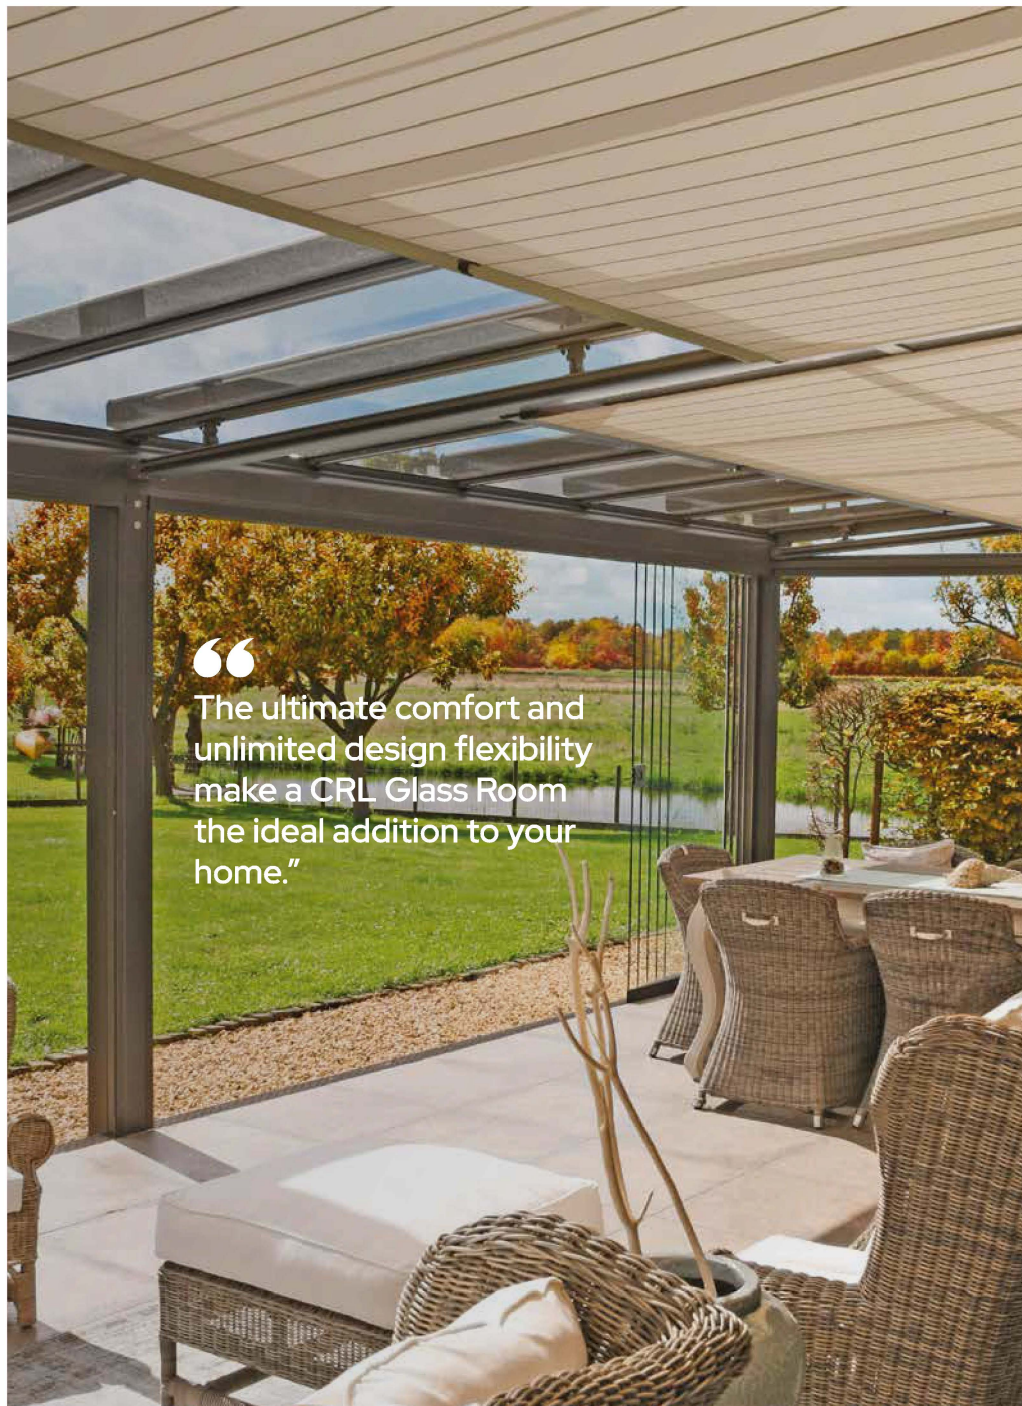

CRL Glass Rooms have a modern progressive design, all of the individual components such as rafters and wall connectors have been designed to complement each other perfectly, creating a sophisticated and modern appearance.

Its timeless design integrates seamlessly with almost all types of architecture and with the range of optional extras you can create a space that is truly in keeping with your home.

“  
Perfect for alfresco  
entertaining whatever  
the weather.”

## Intelligent Modular Design

The main structure of CRL Glass Rooms is aluminium meaning very few supports are required to span large areas.

The intelligent design of the connectors enables a high degree of flexibility and the attractive design gives a sleek, lightweight look while making it extremely stable and giving the structure longevity.

The flexible design of the Glass Rooms means many variations are possible, and with the optional extras of sliding doors and vertical blinds you can have a truly unique space to enjoy your garden throughout the changing seasons.

# Custom Design

---

CRL Glass Rooms are completely bespoke and designed to suit your needs. Take a look at some of the possibilities to give you an idea of the Glass Room that would suit your space.

\*Please note for CRL Glass Rooms with 90° corners the drainage down pipe will be slightly different to that shown in the images.

## CRL Glass Rooms with multiple vertical supports

---

By using 3 or more vertical supports the CRL Glass Room can be extended beyond 7 meters and with a projection of up to 600cm your outdoor living area can truly be something special.

## CRL Glass Rooms with two vertical supports

---

CRL Glass Rooms can span up to 7 meters using just two vertical supports with a projection of up to 600cm. A simple two post design gives a minimalistic look, with uninterrupted views across your outdoor area and beyond.

## CRL Glass Rooms with a 90° Corner\*

---

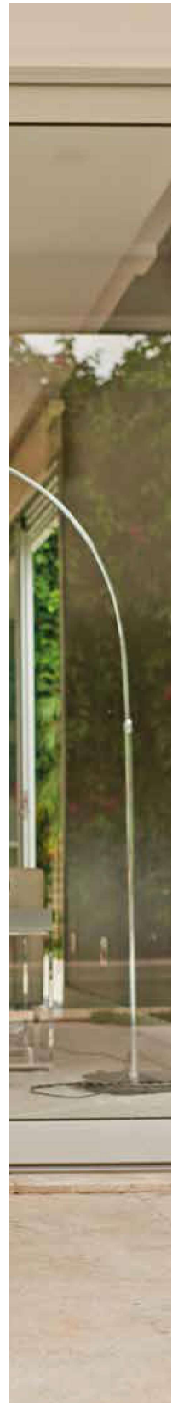

CRL Glass Rooms can negotiate those tricky corners, giving you a dual aspect across your outdoor area.

“

In the Spring and Summer months life tends to move outdoors. The CRL Glass Room can enable that without the worry of that swift dash back indoors should the weather not cooperate.”

## Construction

The sleek lightweight attractive aluminium design is both aesthetically pleasing as well as robust. As standard, all rafters come with integrated channels for fitting lighting and discretely attaching motorised awnings.

- Available in white, grey and anthracite to suit many designs, however custom colours are available on request
- Maximum projection length 600cm
- Support spacing up to 7m without a third support

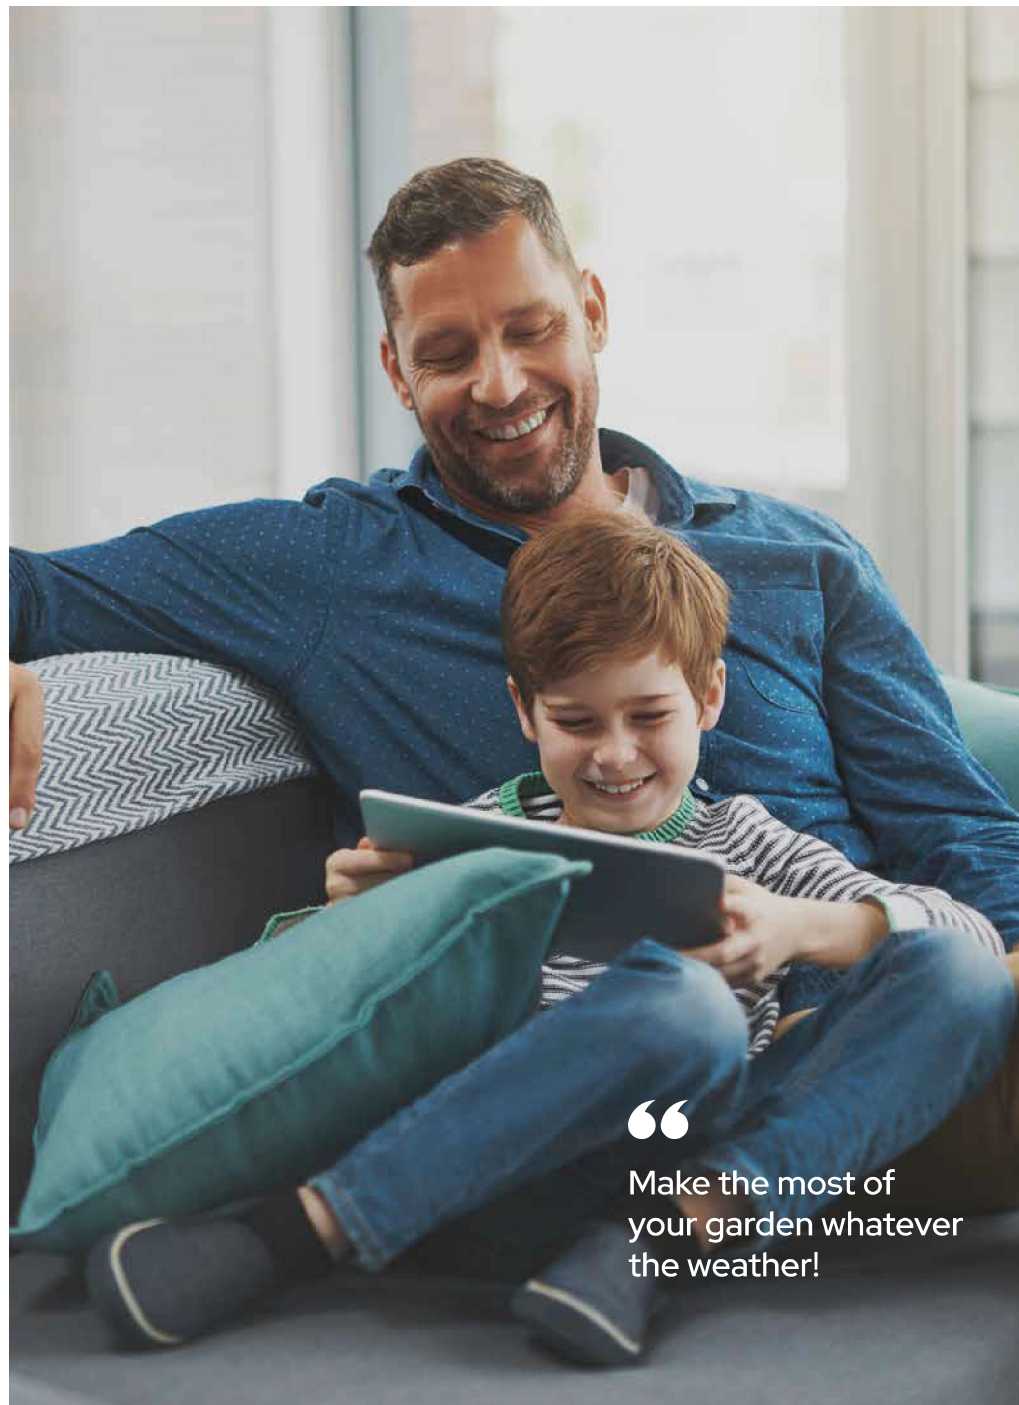

## Integrated Drainage

The inconspicuous drainage is cleverly integrated into the post, rainwater is channelled through the gutter into the drain pipe.

The front profile of the post can be easily removed using a clip system to allow easy access to the drain.

Drainage is also concealed in the profile underneath the side gutter and wall connector cover.

“  
Make the most of  
your garden whatever  
the weather!”

“

Take control of the blinds with the touch of a button”

## Integrated Electric Roof Blinds

The glazed roof draws huge amounts of natural light onto the terrace below. Integrated electric roof blinds can be added for comfort when the sun gets too low.

Relax in a pleasant shaded atmosphere with customised roof blinds. Featuring zip technology the light gap between the guide rail and the fabric is eliminated.

An extensive range of accessories such as lighting rails, heating elements and wireless motors with sensors for sun, rain and wind are available. Its contemporary design and wide range of colour options gives you total design control.

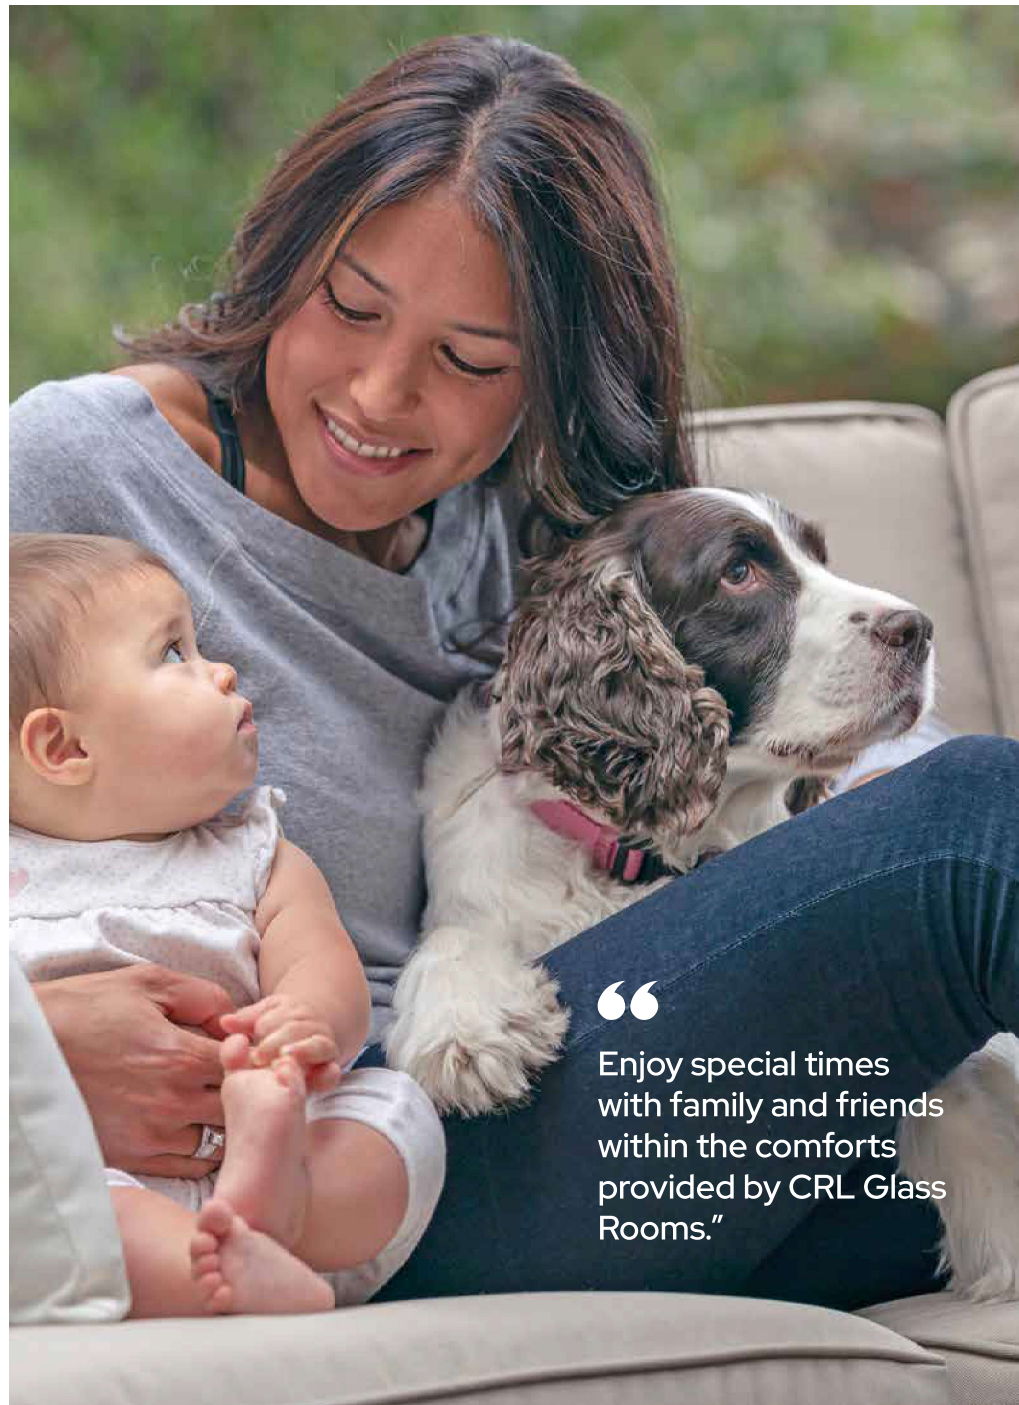

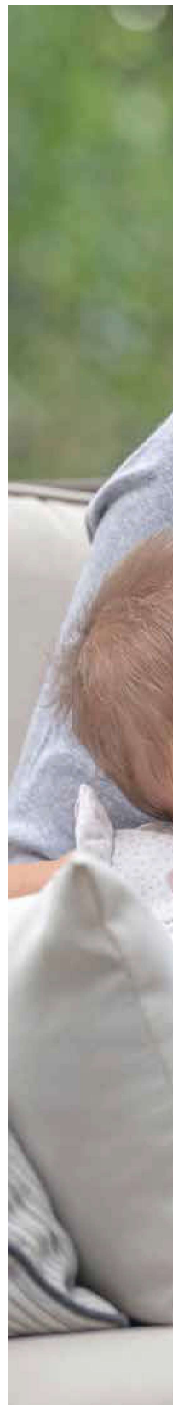

## Sliding Glass Doors

### Versatile, Convenient, Customisable and Elegant.

This versatile all glass sliding door provides wind and weather protection for use with the terrace roofs.

Flush mounted floor tracks provide a seamless transition to the outside. These smooth running and easy to operate transparent doors ensure you're protected from the worst of the elements while still being able to enjoy the view.

- Stainless steel running mechanism for smooth running
- Convenient lock with retraction centring
- Height adjustable panels
- Sophisticated rails with drainage
- Construction tolerances and height compensations

“  
Enjoy special times  
with family and friends  
within the comforts  
provided by CRL Glass  
Rooms.”

“

CRL Glass Rooms –  
Enjoy the freedom of  
outdoors for longer.”

## Vertical Awnings and Blinds

### The perfect solution for low sun and gentle breeze.

Vertical awnings are ideal for use as either a privacy screen, for shade when the sun is low or as a barrier against gentle breeze.

The awning can be retracted quickly and easily and can even be removed for the winter months. Available in a variety of fabrics and patterns to suit any taste or style.

- The fabric contains a UV blocker
- Dirt and water repellent
